

INFORMATION SYSTEM SECURITY SYMPOSIUMS

October 15, 2003
Barnhardt Student Activity Center
9201 University City Blvd, Charlotte, NC 28223-0001 (704) 687-2000

Jointly hosted by:

NCEITA

INFRAGARD

The Information Technology Council of the Charlotte Chamber of Commerce

The University of North Carolina at Charlotte

Overview:

The rapid advancement of technology, especially the widespread use of information and communication technology, has significantly increased interdependencies among diverse business sectors as well as government agencies. The ever-changing nature of international geo-politics, business environments and customer expectations is constantly creating new pressures on business organizations and governments to improve their systems security against malicious attacks. The focus of this workshop is on time-tested best practices, approaches and strategies for improving the security of organizations' information systems. It will also offer an excellent networking opportunity for the attendees.

Intended Audience:

Business continuity practitioners, government administrators, IT managers, information security professionals, software developers, system administrators, and IT students.

Venue:

Barnhardt Student Activity Center, UNC Charlotte.
