overview

Date:
Wednesday October 25th, 2006

Time:
8:15 a.m. until 5:00 p.m.
A CISSP reception will follow

Venue:
McKnight Auditorium in the Cone University Center
The University of North Carolina at Charlotte
9201 University City Boulevard
Charlotte, NC 28223-0001
(704) 687-8644

Synopsis:
Hosted by the College of Computing and Informatics at UNC Charlotte. Other supporting organizations include The Charlotte Research Institute (CRI) at UNC Charlotte, Information Technology Charlotte (ITC), NCTA (North Carolina Technology Association), and InfraGard.

The rapid deployment of advanced communication and information technology in our society has enabled increased interdependencies among diverse business groups, government agencies and other entities. The spread of such technologies, and the consequential reliance on it requires the commitment of all participants to know, understand and take action to minimize the threats that compromise the facility, the integrity of data in the network, and the privacy rights of all persons.

This symposium will focus on the issues and solutions as seen by the most prominent researchers and practitioners in the fields of information security.

CISSP CPEs:
CISSP CPE's will be offered.

Intended Audience:
Business continuity professionals, IT managers, software developers, systems administrators, information security professionals, information security consultants, and policy makers should take advantage of this exceptional opportunity.
